

CLINICAL CASES ALLERGY SCHOOL SESSION GUIDELINES FOR SUBMISSION

General information

For the occasion of the third GA²LEN Allergy School in Barcelona, we are offering you the opportunity to participate in the clinical cases discussion to be held on Saturday, 22nd October 2022 as part of a planned range of educational activities.

This is a great opportunity for healthcare professionals to share their experiences, have their case presented in front of key opinion leaders in the field and be acknowledged as active contributors in the GA²LEN Allergy School.

All participants with interesting clinical cases are encouraged to submit a case for consideration.

Submission rules:

Participants may submit up only a case disease area, including:

- Allergic airway diseases, including allergic rhinitis and asthma
- Drug allergy
- Food allergy
- Mast cells driven diseases
- Urticaria and/or angioedema

The clinical case should be submitted only once: resubmission is not permitted.

A case report must have a short, specific title (containing no abbreviations). A case report summary is limited to 1,950 characters (about 300-350 words). This includes the text plus any graphics, but not the title or authors.

The use of trademarks is prohibited, only International Non-proprietary Names (INN), e.g. generic drug names, are allowed.

Indicate minimum 2, maximum 3 keywords which best correspond to the content of your clinical case. All case reports must be submitted in English with accurate grammar and spelling suitable for publication.

As it is in the intent of Allergy school organization and GA²LEN to provide high-quality sessions focused on educational content that is free from commercial influence or bias, all potential conflicts of interest need to be declared.

Clinical case format:

All abstracts will be submitted on a PDF format based on the following bases.

It is advisable to structure the clinical case in the following sections, following the logical order of evolution:

- Title of the clinical case (abbreviated to coincide with the name of the file). Title should refer to the topic, directly or indirectly, without revealing the diagnosis. The more original, fun, and catchy, the better.
- Introduction of one specific case instead of case series.
- Description of clinical history & patient relevant data
- Physical examination
- Tests
- Differential diagnosis
- Description of case challenges/difficulty
- Final diagnosis and therapeutic approach
- Evolution
- Discussion points
- Bibliography (maximum 7 references, numbered in the text)
- Attached files: maximum 3 tables and/or 3 figures.

Authors:

The first author (=presenting author) is responsible for the content and is the contact person for communication purposes and dissemination of information to co-authors.

The first author (=presenting author) should be a person, who personally participated in the described clinical case.

- First author and co-authors need to provide their: full name and affiliation.
- The first author may nominate a co-author to present a clinical case in his/her place, provided that a co-author was a member of the team who was directly involved in the case.
- Ensure that all authors complete the “Conflict of Interest” statement identifying any financial interest in products or processes involved in their activities.

Submission date

- Clinical case submission by email to: **clinical-case@allergy-school.com** (GA²LEN secretariat) will remain open until 1 September 2022 and abstracts might be edited until this time.

Selection of clinical cases

All submitted clinical cases will be sent for peer review by a panel of three experts in the field of allergic diseases and urticaria (Scientific Programme Committee). Each clinical case will be reviewed and scored to determine which cases are accepted/rejected.

Clinical case report acceptance/non-acceptance status will be communicated by 20 September 2022. Please ensure that the email provided for the presenting author is accurate as all correspondences will be sent via email, to the presenting author.

The eight best scored clinical cases selected by the Scientific Programme Committee, will be presented onsite by the author on Saturday 22 October 2022 at the GA²LEN Allergy School venue in Barcelona.

The power point presentation is required to take a maximum of 8 minutes (panoramic format) and will be followed by a short discussion.

Once presented, the Scientific Programme Committee and attendees of the meeting will vote the best case based on the following criteria:

- Originality
- Novelty
- Clarity of conclusions according to methodology and results
- Duration of the presentation (in compliance with the submission rules)
- Quality of the oral presentation performance

Notification & Registration

Corresponding authors will be notified of acceptance of their clinical case by 3 October 2022.

First author or co-author indicated as presenting author must be attending the meeting or withdraw the Abstract.

Awards

There will be two prizes of a full EAACI 2023 Congress registration: one for the best clinical case voted by the Scientific Programme Committee and one for the best clinical case voted by the audience.

Data protection

Participants authorize GA²LEN to capture the personal data (name, surname, position or job, image, and voice) during the participation in the clinical cases session.

GA²LEN will carry out interviews, photographic reports/audio-visual/sound recordings on its own behalf or through a third party, through capturing images, sound, contributions, interpretations and/or recording by means of video or photography.

Therefore, participants grant GA²LEN an irrevocably non-exclusive right to process and use its own image and personal data, in accordance with the provisions of Law 1/1982, of May 5, the Protection of the Right to Honour, Personal and Family Privacy and Own Image.

For this purpose, the participant gives its consent to the process and use its own image and personal data in accordance with the following clauses:

- a) The participant transfers to GA²LEN the exploitation rights of the recorded images, for the maximum time allowed by law and for all countries in the world.
- b) The participant gives its consent, without limitation, to the following uses of its own image and name recorded by GA²LEN using the technical means currently used and those that may be developed in the future:
 - i) GA²LEN will use the recordings to publicize GA²LEN's internal activities. The recorded images will be used for promotional activities by GA²LEN, in any of the possible formats, including exposure and promotion through the internet and on the different websites of GA²LEN.
